

Addendum to Final Statement of Reasons for CHRB Rules 1433 et al

After submission of the rulemaking file to the Office of Administrative Law, form CHRB-80 (New 02/23) is being relabeled as CHRB-87 (Rev. 02/23), and the corresponding reference to CHRB-80 (New 02/23) in the text for Rule 1440 is being changed to CHRB-87 (Rev. 02/23). Similarly, CHRB-81 (02/23) is being changed to CHRB-86 (New 02/23) both on the form and in Rule 1440.5. Additionally, in subsection (c) of Rule 2059, the word “that” is being underlined since it is being added to the text. These are non-substantive, technical edits that have no regulatory effect.

Also, the language that was to add a \$500 application fee on the form CHRB-25 is being deleted, as the corresponding text was removed from Rule 2057, into which the form is incorporated by reference. This change to the regulatory text was approved by the Board, provided to the public for the 15-day comment period, and explained in the Final Statement of Reasons. Therefore, the change to the form merely provides for consistency with the Board’s intended change to the rule and does not alter the effect of the regulation.
